Appendix 6 – Source Code Repository

This appendix provides access to the complete source code of the Dixen Event Management, Discovery & Ticketing System. The system consists of both a frontend and backend implementation.

Frontend – DixenUI

GitHub Repository: https://github.com/Dikshya-2/Dixen/tree/main/Frontend/DixenUI

The frontend is developed using Angular and Tailwind CSS and contains all UI components, routing, services, and user interface logic.

Backend – Dixen.API

GitHub Repository: https://github.com/Dikshya-2/Dixen/tree/main/Backend/Dixen.API

The backend is developed using ASP.NET Core Web API with Entity Framework Core and Identity. It includes authentication (JWT and 2FA), role-based access control, event management logic, booking, and database integration.
